

ANANYA K

Software Engineer | Full Stack Developer

Bengaluru, Karnataka | ananyadevanga139@gmail.com | +91 9113697386

 LinkedIn |  GitHub |  Portfolio

PROFESSIONAL SUMMARY

Entry-level Software Engineer with hands-on experience in Full Stack Development and AI/ML applications. Skilled in building responsive web applications, RESTful APIs, database integration, and cloud deployment using modern technologies. Passionate about developing scalable software solutions and solving real-world problems.

TECHNICAL SKILLS

Programming Languages: C, Java, Python, JavaScript, TypeScript, SQL

Frontend Technologies: HTML5, CSS3, React.js, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Technologies: Node.js, Express.js, Flask, Django, RESTful APIs, JWT Authentication, Multer

Databases: PostgreSQL, MySQL, MongoDB

AI & Machine Learning: TensorFlow, Keras, OpenCV, Scikit-learn, Pandas, NumPy, Generative AI, LLMs, LangChain, NLP Basics

Cloud & DevOps: Render, Git, GitHub, Docker, Jenkins, CI/CD, Kubernetes, GCP (Basic)

Tools & Concepts: VS Code, Postman, Streamlit, OOP, Data Structures, SDLC, Agile, MVC Architecture

Software Development Practices: Object-Oriented Programming (OOP), Data Structures and Algorithms, Software Development Life Cycle (SDLC), Agile Methodology, MVC Architecture

API & Development Tools: REST API Development, API Testing with Postman, Version Control (Git/GitHub), Debugging, Deployment, Authentication & Authorization, Database Design

PROFESSIONAL EXPERIENCE

Thiranex EduTech LLP 

07/2026 - 08/2026

Full Stack Development Intern

- Developed responsive full-stack web applications using React.js, Node.js, Express.js, and PostgreSQL following modern development practices.
- Designed and integrated RESTful APIs with JWT authentication, database connectivity, and secure backend architecture.
- Implemented frontend components, CRUD operations, and deployed applications using GitHub and Render.

PROJECTS

☰ AI Task Management System

- Developed a full-stack task management application with JWT authentication, CRUD operations, role-based authorization, and PostgreSQL database integration.
- Designed responsive React.js interfaces, integrated RESTful APIs, and deployed the application on Render using Git and GitHub.

Technologies Used: React.js, TypeScript, HTML5, CSS3, Tailwind CSS, Vite, Node.js, Express.js, PostgreSQL, JWT Authentication, RESTful APIs, Axios, Git, GitHub, Render

🔍 Multiple Disease Prediction System

- Developed an AI-powered machine learning application to predict Heart Disease, Diabetes, and Parkinson's Disease using trained ML models.
- Integrated TensorFlow and Scikit-learn models with Flask and Streamlit to provide interactive real-time prediction results.

Technologies Used: Python, Flask, HTML5, CSS3, JavaScript, TensorFlow, Keras, Scikit-learn, OpenCV, Pandas, NumPy, Streamlit, Git, GitHub

🌱 AgroPredict – Crop Recommendation System

- Designed an AI/ML-based web application to recommend suitable crops, fertilizers, and identify plant diseases using agricultural data.
- Implemented machine learning models with Flask backend and deployed the application online using Git and GitHub.

Technologies Used: Python, Flask, HTML5, CSS3, JavaScript, PHP, Pickle, Pandas, NumPy, Scikit-learn, Machine Learning, Git, GitHub, Render

EDUCATION

Bachelor of Engineering (B.E.) – Information Science and Engineering

2024 – 2027

AMC Engineering College, Bengaluru, Karnataka

CGPA: 7.29

Pre-University Course (PCMB)

2021 – 2023

RP Residential PU College, Kadur, Karnataka

Percentage: 83%

Secondary Education

2019 – 2021

BGS English Medium High School, Kadur, Karnataka

Percentage: 63.04%

CERTIFICATIONS

🌟 AWS Cloud Practitioner Essentials 

08/2026

🌟 Data Science Essentials with Python 

08/2026

🌟 Generative AI for Beginners 

08/2026
